

**This alert service is designed for both active swing and position traders. Real-time trade alerts sent via Yahoo IM by Dr. Frank Stanley.**

Dr. Frank Stanley, PhD has been trading the markets for over 16 years. Early in his trading career, he traded many different vehicles ranging from stocks to futures. Ultimately, he was especially attracted to the powerful world and flexibility of options. He painstakingly researched and tested many different options strategies. Over the course of several years, he identified and refined a precise and yet simple method based on his DTI education that allowed him to generate income by adapting to market direction, rather than fighting against it.
